EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

In paragraph 1 line 4 on the first page of the specification, after "09/693,771" insert the phrase --now US Patent 6,344,035--.

In paragraph 1 line 5 on the first page of the specification, after "09/292,510" insert the phrase --now US Patent 6,214,901--.

The lineage has been updated to reflect maturation into US Patents.

The following is an examiner's statement of reasons for allowance:

It should be noted that three Anderson Affidavits dated 12/13/04 are enclosed.

Anderson Affidavit I deals with methacrylates and their crosslinkability. However, the limitation of crosslinkability is not recited in the instant claims. Hence, the arguments presented in the applicant's affidavit are not commensurate in scope with the instant claims.

Art Unit: 1762

Anderson Affidavit II deals with the combination of two polymers and the unexpected results of improved physical and drug release properties. This affidavit alone is not deemed persuasive as the reference does not provide any factual evidence demonstrating the improved physical and drug release properties.

Anderson Affidavit III deals with hydrophobic materials which provides more control over drug release. This affidavit alone is not deemed persuasive as the reference does not provide any factual evidence demonstrating the improved physical and drug release properties.

However, it is noted that none of the prior art references fail to teach or suggest two polymers and a bioactive agent. Specifically, the references fail to teach the combination two specific hydrophobic polymers. This combination leads to improved drug release properties as shown in Examples 1 and 2 of the applicant's specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
